Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**1. Statement**

Novelty (N)	Claims 1 – 11	YES
	Claims	NO
Inventive step (IS)	Claims 1 – 11	YES
	Claims	NO
Industrial applicability (IA)	Claims 1 – 11	YES
	Claims	NO

2. Citations and explanations (Rule 70.7)

The following document identified in the International Search Report has been considered as relevant for the purposes of this report:

D1: JP 09-253975

Novelty (N), Inventive Step (IS)

D1 discloses a device to restrict heat generated between a threaded shaft and a nut. One aspect of this device resides in the measurement of the temperature generated by friction as the threaded shaft and nut are engaged. This is achieved by measuring the temperature of the nut with a thermocouple. D1 does not disclose or suggest the use of an infra-red camera to sense and display the temperature variations over the inter-engaged surfaces of the threaded shaft and nut. The subject matter of claims 1 – 11 is therefore new and inventive.
